Chapter 1

Record of Protected Structures

1. Record of Protected Structures (RPS)

The RPS is set out in a table for the entire County. The table gives the RPS Number, the name of the structure and the townland or street name (where relevant).

2. Maps

The locations of the RPS structures are shown on the Heritage and Conservation Maps in Volume 3 of this plan.

The overall planning policy for the protection of structures is set out in Chapter 7 (Environment & Heritage) of Volume 1. For the Record of Protected Structures (RPS), the key objectives are stated as follows:

ENV 4-1(a): *It is an objective to seek the protection of all structures within the County which are of special architectural, historical, archaeological, artistic, cultural, scientific, social or technical interest.*

ENV 4-1(b): *In accordance with this objective, a Record of Protected Structures has been established and is set out in Volume 2 of this Plan.*

ENV 4-2 : *It is a particular objective to ensure the protection of all structures (or parts of structures) contained in the Record of Protected Structures.*

The Record of Protected Structures is set out in this chapter. Locations of the structures are also indicated on the Heritage and Conservation Maps in Volume 3.

Chapter 2

Architectural Conservation Areas

1. Architectural Conservation Areas (ACAs)

The ACAs are set out in a separate table and are located in 25 settlements.

2. Maps

The locations of the ACAs are shown on the ACA Maps in Volume 3 of this plan.

The overall planning policy for the built environment for the County is set out in Chapter 7 (Environment & Heritage) of Volume 1. For Architectural Conservation Areas (ACAs), the key objective is stated as follows:

ENV 4-6: *It is an objective to conserve and enhance the special character of the Architectural Conservation Areas included in this plan. These Architectural Conservation Areas are shown on the Architectural Conservation Area Maps in Volume 3 and are also listed in Volume 2 of this Plan. The special character of an area includes its traditional building stock and material finishes, spaces, streetscape, landscape and setting.*

The Architectural Conservation Areas are set out in this chapter. The locations of the ACAs are shown on the ACA Maps in Volume 3 of this plan.

Chapter 3

Nature Conservation Areas

MAIN SECTIONS IN THIS CHAPTER:

1. Natural Heritage Areas (NHAs) and Proposed Natural Heritage Areas (pNHAs)
2. Candidate Special Areas of Conservation (cSACs)
3. Special Protection Areas (SPAs) and Proposed Special Protection Areas (pSPAs)
4. Areas of Geological Interest
5. New Areas of Geological Interest
6. Maps

The locations of all Nature Conservation Areas (pNHAs, NHAs, cSACs, pSPAs, SPAs) are shown on the Heritage and Conservation Maps in Volume 3 of this plan.

The overall planning policies for nature conservation in County Cork are set out in Chapter 7 (Environment & Heritage) of Volume 1. The key objectives for protected sites are stated as follows:

ENV 1-5 (a): *It is an objective to provide protection to all natural heritage sites designated or proposed for designation in accordance with National and European legislation. This includes Special Areas of Conservation, Special Protection Areas, Natural Heritage Areas, Statutory Nature Reserves and Ramsar sites.*

ENV 1-11(b): *It is a particular objective to maintain the conservation value of those features or areas of geological interest that are listed in Chapter 3 of Volume 2 of this plan and protect them from inappropriate development.*

The current Natural Heritage Areas and proposed Natural Heritage Areas, candidate Special Areas of Conservation, Special Protection Areas, Proposed Special Protection Areas and areas of Geological Interest are set out in this chapter.

3.1 Natural Heritage Areas

NATURAL HERITAGE

Natural Heritage Areas

The Natural Heritage Areas (NHAs) cover nationally important semi-natural and natural habitats, landforms or geomorphological features, wild plant and animal species or a diversity of these natural attributes.

NATURAL HERITAGE

Proposed Natural Heritage Areas

The proposed Natural Heritage Areas (pNHAs) cover nationally important semi-natural and natural habitats, landforms or geomorphological features, wild plant and animal species or a diversity of these natural attributes.

It is important that the conservation value of these areas, which are proposed for designation from time to time by the Department of the Environment, Heritage and Local Government, be maintained.

3.3 Candidate Special Areas of Conservation

PLANT AND ANIMAL HABITATS

Candidate Special Areas of Conservation

The Candidate Special Areas of Conservation (cSACs) have been selected because they support habitats and plant and animal species that are rare or threatened in Europe and require particular measures, including the designation of protected sites, to conserve them.

The sites are called 'candidate sites' because they are currently under consideration by the Commission of the European Union.

Together with the SPAs they form part of the 'Natura 2000' network of sites throughout Europe.

Bantry Drumlins	Quaternary - drumlin swarm (local mountain glaciation)	Bantry
Barley Lake	Quaternary - glacial corrie	Glengarriff
Black Ball Head	Igneous intrusion - unusual megacryst mineralogy	Carriganeen, Bunnadoonroe
Blackball Head - Whiteball Head	Lower Carboniferous	Canalough, Loughanebeg
Blackball Head to Cahermore	Devonian	Cahermore, Loughanebeg, Canalough
Blackrock diamond quarry	Mineralogy	Ballintemple
Boggeragh Mountains	Fluvial/lacustrine - planation surface	Millstreet
Broadstrand - Seven Heads	Upper Carboniferous	Broadstrand, Seven Heads
Buttevant/ Ballybeg Quarry	Lower Carboniferous stratigraphy, fossils: working quarry	Ballybeg West
Carraigcliona (Near Mallow)	Devonian volcanics	Carraigcliona
Castlepook Cave	Karst - maze cave with rich fossil mammal fauna	Castlepook South
Castletownshend, Castlehaven	Devonian	Drishane
Cloyne	Karst - depression; Tertiary - ball clay and lignite	Cloyne
Cloyne Clay Pits	Mid-Jurassic fossil spores in clay depression	Lissanly and Spital
Cod's Head	Devonian	Reentrusk
Cork Harbour	Coastal Geomorphology - structural features, raised beaches; Devonian (ORS),	Cork Harbour
Cork Red Marble:	Economic Geology - Cork Red Marble	Baneshane, Little Island &/or Midleton
Corkbeg Island	Lower Carboniferous	Corkbeg
Courtmacsherry Bay - Old Head of Kinsale	Coastal Geomorphology - raised marine platform across Carboniferous sandstones	Courtmacsherry, Old Head of Kinsale
Courtmacsherry Beach - Raised beach	Quaternary - raised beach and till	Ballinspittle
Crookhaven [Cu] + Brow Head	Economic Geology - copper mines, red beds	Crookhaven

AREAS OF GEOLOGICAL INTEREST COUNTY CORK		
<i>Site</i>	<i>Geological Interest</i>	<i>Location</i>
Dhurode Mine	Mineralogy - copper and other minerals; Economic Geology	Dhurode
Dower Spring, Castlemartyr	Karst spring	Castlemartyr
Dunbeacon Castle-Dunmanus Bay	Lower Carboniferous	Dunbeacon, Bantry
Dunmanus Castle northwards	Devonian	Dunmanus East
East Glengarriff Harbour to Ardnamanna Point	Devonian	Numerous Townlands
East Toe Head	Devonian	Gortacrossig
Foilcoagh Bay	Devonian marine fossils in continental succession	Cape Clear Island
Foley Cave	Quaternary/Karst - cave fauna	Bridgetown Upper, Connaberry
Fountaintown Creek to Ringabella Beach	Lower Carboniferous fossils	Ringabella Tn, Minnane Bridge
Galley Head - Belacoon Cove	Lower Carboniferous	Dundeady, Clonakilty
Glandore (Aughatubrid Mine)	Mineralogy - 'corkite' type locality; unique in Ireland	Glandore
Glandore/Rosscarbery etc	Fluvial/Lacustrine - incisions, drowned valleys	Glandore/Rosscarbery etc
Horse Island [Cu]	Economic Geology - copper mineralisation in old workings	Horse Island
Howe's Strand	Quaternary - subglacial meltwater furrows across marine rock platform; unique to Ireland and GB	Howe's Strand
Killumney Moraine	Quaternary - glacial moraine	Killumney
Kilworth	Victorian pumping station/Springs	Kilworth
Knockadoon Head	Quaternary - glacially striated rock platform	Knockadoon Head
Lady's Well, Mallow	Warm spring	Mallow
Ladyswell/Duneen/Clonakilty [Ba]	Economic Geology - steeply-dipping barite mineral vein.	Duneen
Laharran Quarry, Minane Bridge	Mineralogy - 'wavellite' mineral; Lower Carboniferous stratigraphy	Minane Bridge
Lee and Blackwater Valleys	Quaternary - outwash trains and deltas	Lee and Blackwater Valleys

Inchydoney Beaches

Mount Gabriel

AREAS OF GEOLOGICAL INTEREST COUNTY CORK		
<i>Site</i>	<i>Geological Interest</i>	<i>Location</i>
Little Island	Cork Red Marble fossils	Little Island
Lough Beg Section	Lower Carboniferous coastal section, armour stone	Loughbeg, Curraghbinnny
Lough Hyne	Coastal lagoon with solid rock barrier	Lough Hyne
Meenskeha	Quaternary - fossil pingos (ice-lens mounds)	Millstreet
Midleton Distillery Springs	Karst springs	Midleton
Mizen Head - Barley Cove	Coastal Geomorphology	Corran Beg, Corran More, Gannawee, Dough
Modrana	Economic Geology -slate mines	Clonakilty
Mount Gabriel [Cu, Ba]	Economic Geology - Bronze Age copper mines, barite veins	Mount Gabriel
Myrtleville to Ram's Head	Devonian section	Numerous Townlands
NE coast of Cape Clear/Foilcoagh Bay	Devonian coastal section	Firbreaga
Nohaval Cove - Turrets	Lower Carboniferous	Reaniesglen, Dunbogey
Old Head Kinsale (West coast)	Upper Carboniferous	Courtmacsherry, Old Head of Kinsale
Old Head of Kinsale	Devonian and Carboniferous type section for Munster Basin	Ballinspittle, Downmacpatrick, Kinsale
Owentaraglin River	Fluvial meanders	Millstreet
Pass of Keimaneigh	Quaternary - spillway	Derreendonee, Inchi Beg
Pigeonrock Glen in Galtys	Devonian	Knocknascrow, Carrigeen Mtn
Reenydonagan Point	Lower Carboniferous microfauna	Reenydonagan, Bantry
Relane Point	Lower Carboniferous	Relane Point
Ringabella Bay and Point	Quaternary - low drift cliff and striated raised platform	Ringabella
Ringabella Section - Fountainstown - Myrtleville - Rams Head	Lower Carboniferous and Devonian stratigraphy	Ringabella, Kinsale
Ringaskiddy, Golden Rock	Lower Carboniferous	Ringaskiddy

AREAS OF GEOLOGICAL INTEREST COUNTY CORK		
<i>Site</i>	<i>Geological Interest</i>	<i>Location</i>
River Blackwater	Fluvial straths	Rathmore, Millstreet
River Sullane	Fluvial - river channel within bog	Ballymakeery, Macroom
Road cuts near Youghal (Youghal bridge)	Devonian	Youghal
Rock Farm Quarry, Little Island	Lower Carboniferous - type section for Cork Red Marble and younger limestones	Little Island
Rock Forest, Mallow	Mineralogy - 'cotterite' mineral type locality	Mallow
Sandycove to East Toe Head	Devonian	Ballycahane, Scobaun, Farranconnor, Gortacrossig
Shanballymore	Karst spring	Shanballymore
Shot Head	Devonian coastal section	Coosard
Simon's Cove	Quaternary -marine rock platform, subglacial erosion and deposition	Clonakilty Bay
St. Joseph's section on Lee Road (Cork city)	Uppermost Devonian	Cork city
Subulter Quarry	Lower Carboniferous - dolomitised Waulsortian Limestone: working quarry	Subulter
The Gearagh, River Lee	Fluvial - anastomosing channel	Gearagh West
Toe Head	Late Devonian plant fossils	Toe Head
Trinity Well	Warm spring	Newmarket
Tubbrid, Millstreet	Karst spring	Tubbrid
Whiddy Island (N west Coast)	Upper Carboniferous (Namurian) coastal section	Whiddy Island
White Bay - Roche's point - Gyleen	Devonian	White Bay - Roche's point - Gyleen
Youghal (under light-house)	Devonian	Youghal
Youghal Bay	Coastal geomorphology - intertidal zone, sand spit, estuary, cliffs, dunes	Youghal Bay
Kanturk coalfield	Economic Geology - coal measures	Dromagh
Gortnabinna	Devonian trace fossils	Gortnabinna

Chapter 4

Scenic Routes

1. Scenic Routes

The plan has identified specific Scenic Routes consisting of important and valued views and prospects within the County. The established scenic routes include a variety of images, which relate to impressive or beautiful natural scenery. Scenic routes act as indicators of high value landscapes and identify more visually sensitive locations where higher standards of design, siting and landscaping are required.

S38 Scenic Route

Scenic Routes Profile:
Each profile includes a reference number and a more detailed description of the general views being protected from each route.

See also Appendix B for a more detailed description of each Scenic Route.

S110 Scenic Route

2. Maps

The scenic routes in this chapter are shown on the Landscape Map, Volume 3 of the plan.

The overall planning policies for visual amenity for the County are set out in Chapter 7 (Environment & Heritage) of Volume 1. These policies cover visual and scenic amenity and views & prospects. The key objectives for views and prospects are stated as follows:

ENV 2-9: *It is a general objective to preserve the character of all important views and prospects, particularly sea views, river or lake views, views of unspoilt mountains, upland or coastal landscapes, views of historical or cultural significance (including buildings and townscapes) and views of natural beauty as recognised in the Landscape Strategy.*

ENV 2-11: *It is a particular objective to preserve the character of those views and prospects obtainable from scenic routes identified in this plan. These routes are shown on the scenic amenity maps in Volume 3 and listed in Volume 2 of this plan. A profile of each route and the views to be protected are listed in Volume 2 of this plan.*

ENV 2-12: *It is an objective to protect the character and quality of those particular stretches of scenic routes that have very special views and prospects.*

ENV 2-13: (a) *It is also an objective of the Planning Authority to require those seeking to carry out development in the environs of a scenic route and/or an area with important views and prospects, to demonstrate that there will be, no adverse obstruction or degradation of the views towards and from vulnerable landscape features. In such areas, the appropriateness of the design, site layout, and landscaping of the proposed development must be demonstrated along with mitigation measures to prevent significant alterations to the appearance or character of the area.*

(b) *It is an objective to encourage appropriate landscaping and screen planting of developments along scenic routes. Where scenic routes run through settlements, street trees and ornamental landscaping may also be required. Refer to Objective ENV 4-13, which provides guidance in relation to landscaping.*

The profile of scenic routes for the county is set out in this chapter and in Appendix B of this Volume.
