I've no objection going to the maximum.

Le meas,

Bryan

Dear Bryan,

At the MD meeting presenting this project, the councillors were very concerned that we increase the car parking and asked us to revisit the issue.

Thus, we request to increase the car parking to the maximum that is permitted under the general requirements of the development plan – which we understand is 4 visitors and 12 for the social units.

The councillors suggested this project might be considered a special case as the 4 visitor car spaces were for the original estate which is under provided to current standards.

We would appreciate your opinion and a revised report depending on your response.

Regards
